

Verra-Voile — Seed Round Business Plan

AI-Powered, One-Stop Overseas Destination Wedding Platform for Chinese Couples

1. Problem

Approximately 7 million couples get married in China each year, with a growing percentage choosing overseas destination weddings. However, couples face the following core challenges during planning:

1. **Extremely Fragmented Discovery Channels** — No unified aggregation platform. Couples can only browse scattered guides on social platforms like Xiaohongshu, and must search for venues, photographers, and florists separately — inefficient and unreliable.
2. **Opaque Pricing** — No standardized venue pricing, vague package details, making it difficult for couples to estimate real costs and feel confident in their decisions.
3. **Inconsistent Information Quality** — Online content is hard to verify, with outdated information and paid promotions rampant, leaving couples without trustworthy references.
4. **No One-Stop Service** — Venues, photographers, florists, and dresses are scattered across different channels, with no platform connecting the entire planning workflow.

2. Solution

Verra-Voile is an **AI-powered, one-stop European destination wedding service platform** for Chinese couples, offering:

- **European Venue Database** — 500+ popular European wedding venues (castles, manors, churches, wineries), unified Chinese display with transparent pricing.
- **European Photographer Network** — Curated wedding photographers across Europe, with online portfolio browsing.
- **Flowers & Dress Shopping** — Connected to European suppliers for online selection and price comparison.

- **AI Smart Assistant** — Intelligent recommendations based on budget and style preferences; upload wedding videos or photos, and AI automatically captures scene details to generate matching venue, dress, and floral proposals.

One-Liner: Making European wedding planning as easy as shopping on Taobao for Chinese couples.

3. Market Size

Metric	Data
Annual marriages in China	~7 million (2025)
Destination wedding share	~5%-8%, growing 15%+ annually
Average destination wedding spend	¥80,000–150,000 per couple
TAM (Total Addressable Market)	~¥300 billion/year (incl. honeymoon travel)
SAM (Serviceable Addressable Market)	~¥35 billion/year (destination wedding direct spend)

SOM (Serviceable Obtainable Market)	~¥300–500 million/year (Chinese couples' European destination weddings)
-------------------------------------	---

Why Now:

- Outbound travel fully recovered, overseas wedding demand rebounding.
- Post-95s/00s couples pursue personalization and ceremony experiences.
- Social media (Xiaohongshu/Douyin) accelerates overseas wedding content spread, continuously stimulating demand.

4. Business Model

Revenue Streams

Revenue Type	Description	Est. Share
Supplier Commission	10%-15% commission on venue/photographer/floral bookings	50%
Value-Added Services	Wedding planning, translation escort, itinerary customization	30%
Advertising & Featured Listings	Supplier-paid premium placement and exposure	15%
Membership/Subscription	Advanced selection tools, dedicated consultant service	5%

Unit Economics (Estimated)

- Average order value: ¥100,000
- Platform commission rate: 12%
- Revenue per transaction: ¥12,000

- Customer Acquisition Cost (CAC): ¥500–1,000
- LTV/CAC ratio: >10x

5. Competitive Landscape

Existing Players

Competitor	Model	Weakness
Traditional wedding agencies	Offline stores, 1-on-1 service	High price, low efficiency, not scalable
Wedding Mao / DaoXiLa	Domestic wedding service platforms	No overseas destination coverage
Xiaohongshu / Douyin content	UGC experience sharing	Fragmented info, no direct transaction
Overseas platforms	The Knot, WeddingWire	English-only, not serving Chinese market

Our Differentiation

Dimension	Traditional Agencies	Content Platforms	Overseas Platforms	Verra-Voile
Info Aggregation		Fragmented	×	✔ One-Stop
Chinese Service	Partial	✔	×	✔
Transparent Pricing	×	×	×	✔
AI Smart Recommendations	×	×	×	✔
Online Transaction	×		Partial	Planned

Core Moats:

- 1. **Data Moat** — 500+ venues and hundreds of photographers with structured data, difficult for competitors to replicate in the short term.
- 2. **AI Capability** — Deployed multimodal AI: upload wedding videos/photos to auto-identify venue style, florals, dresses and generate matching proposals; AI advisor covers 7 categories (venues, photographers, florals, dresses, wine, travel photography, wedding teams) with personalized recommendations. Architecture: LLM + Function Calling + Tool Chain, data and intelligence decoupled for continuous iteration.
- 3. **Content Moat** — SEO layout completed, Baidu indexing continuously drives organic traffic.
- 4. **First-Mover Advantage** — No one-stop overseas destination wedding platform exists in China yet.

6. Product Status

Live Features

Module	Status	Description
Destination Venues	✔ Live	500+ overseas venues with details, images, pricing
Photographer Network	✔ Live	Popular destination photographers in Europe/Southeast Asia
Travel Photography	✔ Live	Destination travel photography products
Floral Products	✔ Live	Connected to Florajet international suppliers
Wedding Dresses	✔ Live	Multi-category display
Wedding Teams	✔ Live	Destination wedding planning teams
AI Smart Advisor	✔ Live	AI-powered wedding plan recommendations

User System	✔ Live	Registration/login/order management
Admin Panel	✔ Live	Content and data management
SEO Optimization	✔ Complete	SSG pre-rendering, Baidu indexed

Key Metrics

- Venues listed: 500+
- Photographers listed: 100+
- Floral SKUs: 200+
- Countries/regions covered: 20+
- Website live and operating

7. Growth Strategy

Phase 1: Cold Start (0-3 Months)

Channel	Strategy	Target
Baidu SEO	Optimize long-tail keywords ("Italian manor wedding", "French castle wedding", etc.)	Steady organic traffic growth
Xiaohongshu	Publish 3-5 European wedding guides/venue reviews per week	Build content matrix
Douyin	Venue real-shot short videos + wedding planning tips	Account cold start
KOL Partnership	Invite wedding bloggers to experience the platform and create content	3-5 bloggers
Deal Breakthrough	Content-driven traffic + AI recommendation引导, complete first signings	Close 1-2 real deals

Phase 2: Validation & Conversion (3-9 Months)

- Establish first batch of partner suppliers (20-30)
- Complete first batch of closed deals (10-20)
- Collect user feedback, iterate product
- Build word-of-mouth referral mechanism

Phase 3: Scale-Up (9-18 Months)

- Expand destination coverage (deeper into European tier-2/3 destinations)
- Introduce more supplier categories
- Build offline consultant team
- Target: 50,000+ monthly visits, 50+ monthly deals

8. Team

Founder — Wei Tong

- Xidian University
- Former Alibaba Engineer (2024–2026), responsible for overall platform architecture and full-stack development

Technical Advisory Board

Team members are all from top-tier internet companies, participating in project development as technical consultants:

Name	University	Background	Role
------	------------	------------	------

Qiang Cao	Xidian University	Former Ctrip Engineer (2024–2026)	Travel Industry Technical Advisor
Zhichao Yan	East China University of Science and Technology	Former Alibaba Engineer (2024–2026)	Backend Architecture Advisor
Miaomiao Sun	Xidian University	Former Alibaba Engineer (2023–2026)	Frontend Technical Advisor
Zhenguo Wu	University of Melbourne	Former Alibaba Engineer (2024–2026)	Data & AI Advisor

Why Us: The founder has full-stack capability to independently deliver a complete product. The technical advisory board of 4 members all come from Alibaba/Ctrip, covering travel, e-commerce, and AI domains. The team combines execution ability ("can build the product") with industry judgment ("understands the market").

9. Funding Plan

This Round

Item	Details
Round	Seed
Raise Amount	¥300,000–1,000,000 RMB
Equity Offered	10%–15%
Use of Funds	See breakdown below

Use of Funds

Category	Share	Description
Marketing	40%	Xiaohongshu/Douyin ads, KOL partnerships, SEO optimization
Product Iteration	25%	AI recommendation optimization, mobile adaptation, transaction flow improvement
Team Expansion	20%	Former Alibaba/Ctrip colleagues joining for operations and business development
Operations Reserve	15%	Servers, data, daily operations

Milestones

This funding is expected to sustain **3-12 months**, targeting:

- 500+ monthly active users
- 30+ partner suppliers
- 20+ closed deals
- Validate business model, trigger next funding round

10. Vision

Starting from **overseas destination weddings**, gradually building **cross-border wedding service infrastructure** for Chinese couples:

Now	→	6 Months – 1 Year	→	2–3 Years
One-stop info platform		Transaction + Service platform		
Cross-border lifestyle platform				
(Browse venues, portfolios)		(Book, pay, service)		
(Honeymoon, overseas property, immigration)				

Ultimate Goal: Enable every Chinese couple to easily have their dream overseas wedding.
